

## **AAIS - A WAR - Example of Reading List**

**American Journal of Botany**, VOL. 89, No. 5, May 2002

Discovery of an endophytic alga in *Ginkgo biloba*. By Jocelyne Mouillaux-Guiller, Thomas Rohr, Rene Rohr and Volker A.R. Huss, pp 727-733.

**Annals of Botany**, Vol. 89, No. 2, February 2002

Leaf structural and photosynthetic characteristics, and biomass allocation to foliage in relation to foliar nitrogen content and tree size in three *Betula* species. By Niinemets, A. Portsmouth and L. Truus, pp 191-204.

**Arboricultural Journal**, Vol. 26, No. 1, April 2002

Inter and intra-site variation in the fruiting of common Beech (*Fagus sylvatica* L.) in England over a twenty-two year period (1980-2001). By J.R. Packham and G.M.Hilton, pp 1-22.

The influence of de-icing salts on growth and leaf photochemistry of seven urban tree species. By Glynn C. Percival and Andrea Henderson, pp 23-41.

A new failure criterion for non decayed solitary trees. By C. Mattheck, K. Bethge, I. Tesari and R. Kappel, pp 43-54.

High hedges - new laws. By Julie Richardson, pp 55-64.

**Biodiversity and Conservation**, Vol. 11, No. 6, June 2002

Forest ecosystems: threats, sustainable use and biodiversity conservation. By J-M. Thiollay, pp 943-946.

CRONER Health & Safety Briefing, Issue Number 239, 12 July 2002

Insurance overhaul planned. The Health and Safety Commission is to reform the current arrangements for employers' liability insurance so that premiums are used to motivate employers to improve their health and safety record, p 1.

Case law: risk assessment (part 1). Decided cases where the assessment of risks has been a significant element. By Robert Spicer, p 3.

Employment tribunals (part 2). Recent changes in, and concerns about, employment tribunals, which replaced the industrial tribunal. By Robert Spicer, pp 4-5.

**English Nature Magazine**, Issue 62, July 2002

Free as a kite. There is more work to be done by English Nature and its partners if this still endangered bird is to thrive, pp 14-15.

**Envirotec (Environmental Technology)**, June/July 2002

Challenge of the century. Why the challenges of climate change can only be met collaboratively. By Sir John Harman, pp 28-30.

**Estates Gazette**, 13 July 2002

Easily overlooked. Even with the advent of the Land Registration Act 2002, landowners must remain alert to easements that could affect their land. By Catherine Hood, p 124.

**Horticulture Week**, July 11, 2002

Lotto cash keeps park renovations going. By Eloise Seddon, p 11.

Climbing Lonicera. These fragrant favourites are ideal for growing up pergolas, arches and trees. By Kay Woodward, pp 14-15.

Putting plants to work. Recent studies show that having plants in the workplace can boost employee productivity. By Amy Jenkins, pp 18 - 19.

Training places. On-site training or college-based courses. A look at the most effective ways to boost staff skills. By Jez Abbott, pp 23-24.

**Journal of Nature Conservation**, Vol. 10, 2002

Methodological standards for nature conservation: case-study landscape planning. By Rainer Müssner and Harald Plachter, pp 3-23.

**Journal of Practical Ecology and Conservation**, Vol. 4, No. 2, 2001

The management of an invasive plant in policy and in practice: a case study of *Fallopia japonica* [Japanese knotweed] in Swansea, in South Wales. By Sean Hathaway, pp 22-31.

The emergence of a legal duty to restore wildlife and wildlife habitats in England and Wales. By Paul A. Rees, pp 32-38.

An action plan for the control of an exotic, invasive perennial herb [Japanese knotweed]. By Sean Hathaway, pp 39-47.

**Landscape Design**, No. 312, July/August 2002

Countryside change - a view from the frontline. The pressures on the countryside are particularly acute in the south east of England. Some of the key areas of change are in Surrey. By Mike Dawson, pp 21-24.

The cost of change. Now that food and environmental planning is overseen by one British Government department, the onus must be to ensure that the countryside benefits. We cannot expect change without paying for it. By Merrick Denton Thompson, pp 38-41.

**Mycological Research**, Vol. 106, Part 4, April 2002

Three new species of *Phytophthora* from European oak forests. By T. Jung, E.M. Hansen, L. Winton, W. Oflwald and C. Delatour, pp 397-411.

**New Scientist**, 13 July 2002

Fewer genes, better health. Why do plant genomes dwarf our own? By James Randerson, p 19.

Virtuous nature. Chimps show signs of embarrassment, whales and ravens fall in love. But can animals really have a sense of right and wrong? Marc Bekoff thinks they do, pp 34-37.

Green foundations. It's time to make the concrete jungle emulate the real thing. By Fred Pearce, pp 38-40.

**Physiologia Plantarum**, Vol. 115 (1).

Winter drought induced embolism in Norway spruce (*Picea abies*) at the Alpine timberline. By S. Mayr, M. Wolfschwenger and H. Bauer, pp 74-80.

Water relations and gas exchange in poplar and willow under water stress and elevated atmospheric CO<sub>2</sub>. By J.D. Johnson, R. Tognetti and P. Paris, pp 93-100.

**Scientific American**, July 2002

15 answers to creationist nonsense. Opponents of evolution want to make a place for creationism by tearing down real science, but their arguments don't hold up. By John Rennie, pp 62-69.

**Society and Natural Resources**, Vol. 15, No. 6, 2002

Position on environmental issues and engagement in proenvironmental behaviours. By Gene L. Theodori and A.E. Luloff, pp 471-482.

**Swiss Forestry Journal**, Vol. 153, June 2002

Use of sound velocity and drilling resistance to evaluate simulated defects in Norway spruce. [In German, English summary, p 208-209]. By Peter Niemz, Claus-Thomas Bues and Steffen Herrmann, pp 201-209.

**Tree Care Industry**, Vol. 13, No. 4, April 2002

Pruning shrubs for health and beauty. By Ruth Foster, pp 22-26.

Business of tree care. Selling a variety of services on the same visit will increase your bottom line. By Roger Feit, pp 33.

ANSI standard. Putting the ANSI pruning standards to work in your business is good business. By Sharon Lilly and Geoff Kempter, pp 36-38, 40, 42.

Wildlife management the Countryside and Rights of Way Act [UK] helps protect bats and wildlife habitat. By Andrew J. Cowan, pp 44-46, 48.

Pest management. Leaf-eating insects pose serious problems for tree care professionals. Don't let the plants in your care become 'salad on a stick' By David Munson, pp 50-52.

Forest history. The legacy of America's forests is one of abuse, use and rejuvenation. By Steve Sandfort, pp 54-58.

Operation safety. A simple tool and some quick calculations will help you take safe felling to new heights. By Tim Ard, pp 84-85.

From the field. Thoughts on the perfect tree and the fine art of pruning. By Kevin Westphal, p 88.

AAIS 26th July 2002.
